SUBJ: LETTER OF APPRECIATION

This letter is in recognition of the outstanding job the following DAPS employees have performed on the "Clearing of Live Ammunition From Guns" Technical Manual (SW300-BC-SAF-010). Their hard work has contributed greatly to the success of this project. Due to the critical safety issues involved in this manual, it has been imperative that we do the best job possible in providing the fleet with a technical manual that meets their needs. We could not have accomplished this task without their efforts.
